## DESCRIPTION

Horcs are known to be objectionable. Snottz MacDump makes your average Horc look like your cute & cuddly grandma. Snottz is among the most objectionable and disgusting Horcs you're likely to come across. One of Snottz' eyes is about twice the size of the other which singled him out in childhood and on into adulthood and probably had a lot to do with him developing his aggressive personality. Since the concept of "therapy" is completely foreign to Horc society, Snottz being teased for his deformity turned him into quite a bully which dovetailed nicely into his chosen career: Slaver.

Snottz lives to dominate the weak for personal gain. He works for a big slaving and has gained a certain amount of notoriety for his success at bringing in slaves but he is so violent and prone to fits of rage that lesser-ranked slavers cringe when assigned to his command. MacDump never goes on an expedition without Gutmasher, his favourite implement of destruction. Gutmasher is a heavy iron bar with a large chunk of dried concrete on one end. Many a slave has a piece of gravel from Gutmasher permanently embedded in their craniums for sassing back to Snottz MacDump before being enslaved.
